

## Call for practitioners and theorists in residence c/o SuperOtium

This call is reserved to all practitioners and theorists interested in discovering Napoli and develop a research or a project in the field of art, culture, archeology, design, music and creativity. There are no restrictions of age, nationality or qualification for applying to this call. Due to space limitations, applications from groups of more than 2 people or collectives will not be accepted.

The intent of the call is to promote mobility for the practitioners and theorist and to stimulate the creation of new projects and ideas based on the collaboration among people active in Neaples and people from abroad. Please have a look to our statement [here](#).

Once a month we will select one or more of the applicants to be hosted at SuperOtium with a special price (from the 75% to the 20% of the rooms' regular prices). The price for the stay will be defined on the basis of the project/research and number of nights (for a minimum of 5 nights and a maximum of 3 weeks).

The price will includes stay, local taxes, breakfast, the using of the space (compatibly with our accommodation services) as studio and our support to get in touch with local institutions, artists, curators, universities, art and creative spaces, independent organizations, manufacturers, etc...

Beside the cost for staying we will also ask to the applicants to leave a sign of their stay (an artwork to be exhibited at our home gallery, a talk to present the project, etc...).
